Corporate Challenge Series

Is your business up for the challenge?

What is the Corporate Challenge Series?

The Corporate Challenge Series is a year long series of events that pits companies against each other in different competitions to achieve 3 goals: Improve employee relationships, improve employee well-being, and support your local YMCA and community. The schedule of events offers something for all of your employees, from the already fit to the wanting to get active. The Series offers something that will appeal to all of your company's employees.

In addition to the main team that represents your company, you are able to enter additional teams per event for an additional fee. This allows for even more of your employees to enjoy the fun and healthy competitive atmosphere that we hope to create with the Corporate Challenge Series.
